Markey Cancer Center
800 Rose Street
Lexington, KY 40536-0093

Dear Doctor Glenn:

Dr. David Utz suggested that I write to you regarding potential funding for research on prostate cancer. My laboratory has had a long-term commitment to studying this disease and the underlying molecular defects. I am enclosing an abstract for a proposed project.

If you feel that the Council for Tobacco Research--USA, Inc. might be interested in supporting such research, I would appreciate a response. Thank you for your concern.

Sincerely,

Don Tindall
